

Excalibur is the most powerful in the Fugro Seacore fleet of jackup barges, in class with Germanischer Lloyd.

This 8-legged barge is capable of working in water depths up to 40m and has been used extensively for installing foundations for offshore windfarm projects and also can be equipped with FSCL's T90 pile top drill.

The jackup provides a very stable working platform with accommodation for up to 50 personnel. Facilities include galley, mess room, recreation room, toilets, showers, a laundry as well as office, workshop and store rooms.

It comes fully equipped with navigation and communication systems, including GMDSS radio room, VHF, INMARSAT and NAVTEX.
